Both Women Went with Him.

For several weeks afterward Windus was constantly in the company of the two married women The affair came to a climax late last week when the trio disappeared The sudden going of the three soon became the subject of general gossip. HISTORY OF THE DEAL

Which Brought About the Trouble at Kansas City, Kan.

KANSAS CITY, Aug 12—The assault on the city council of Kansas City, Kan., by the Taxpayers' league set the people of that thrifty Kansas town wild The history of the deal through which the town is asked to pay and through which the council proposes to pay nearly $400,000 for a light plant that would be high at $75,000 is as follows Last year resolutions were adopted by a unanimous vote favoring the municipal ownership of waterworks and electric light works Not long ago the council took up the question and a committee was appointed to make an inspection of the plant and determine whether it was advisable for the city to purchase it

A "Cut-throat" Contract.

The committee in a short time submitted its report showing it would be cheaper for the city to own its plant if it could be secured at a reasonable price The committee reported that the company held a "cut throat" contract with the city and that it would be impracticable to construct a new plant so long as this company held an exclusive franchise Mayor Haunan then appointed a committee consisting of three citizens and six councilmen to open negotiations for the purchase of the plant This committee went to work and after three weeks submitted a report

Adopted by the Council.

They claimed that the actual value of the plant was $187,000 and that it was earning 5 per cent on $400,000 The committee recommended the purchase of the plant for $340,000, providing the company would throw in fifty more feet of ground adjoining the plant and also receipt a $14 000 bill which it now holds against the city The report was adopted by the council Monday night and then the Citizens' league began its bombardment. Tuesday the league held another meeting and passed resolutions denouncing the action of the council

WANT A WESTERN MAN

Southern People Would Like to See Campbell in the Presidential Chair

WASHINGTON, Aug 12—Frank Small, a well known southern newspaper man, who has been making a tour of the various southern states has arrived here He says that as a result of his investigation throughout the south he finds that whatever Hill enthusiasm may have once existed nothing remained of it now The southern people he says, want a western candidate—Campbell of Ohio if he should win his present fight. If no western man is available they will fall back on Mr Cleveland

Their Visit was Harmful

All eyes are centered, he says, on the Alliance fight in Ohio He does not believe that the Alliance in the southern states will prove false to the Democratic ticket, because the southern Alliance is a purely local affair and has no desire to act independently in national politics The Democratic party in the south has always been the white man's party and therefore appeals to the Alliance farmers "Jerry" Simpson and Senator Peffer, he says, have done the Alliance more harm than good by their visit to the south

The Kaiser Able to Walk.

BERLIN, Aug 12.—Referring to the many different stories in circulation regarding his majesty's condition, the Kieler Zeitung says that the emperor is able to walk, and that he ascends and descends the stairs without assistance.

OPPOSE A THIRD PARTY.

Peffer's Plans Not Favored by Illinois Farmers.

MANY GRANGERS AT SPRINGFIELD

Speeches by Governor Fifer and Presidents Lindley and Stillwell—Mr. Lindley Advises Work for the Farmer in the Old Parties—Remarks by Stelle, Mrs. Gougar, and Treasurer Wilson—Senator Carlisle's Comments on the Situation—Other Political Matters.

SPRINGFIELD Ill, Aug 12—The organized farmers of Illinois the Patrons of Husbandry the Farmers' Mutual Benefit association, Farmers' Alliance and Industrial union and Alliance are congregating in Springfield in large numbers They are coming with their wives and daughters and sons to attend the annual encampment of agricultural and industrial organizations held under the auspices of the state Grange They are not assembled to boom any political party or to form a new one Democrats, Republicans and Prohibitionists are on the programme as speakers, and all are given respectful attention John M Thompson, master of the state grange, presided, and an address of welcome was delivered by Governor Fifer, who expressed the opinion that Illinois farm lands would in the near future be worth $100 per acre and he hoped that the encampment would prove pleasant and profitable

President Lindley's Address

Cicero J Lindley, president of the Farmers' Mutual Benefit Association of Illinois, responded in a conservative address In the course of his remarks he said "All men have the right to connect themselves together for mutual interest and advancement None more so than those engaged in agriculture They organize to attain certain objects or to promulgate fixed principles and their success depends largely upon a continued effort in that direction The moment they deviate that moment retrogression ensues While it is true that the number engaged in agriculture and labor largely predominates over those engaged in all other business yet we are but a part of the great common people that make up the citizenship of this great country, entitled to all privileges guaranteed under the constitution and no more" He opposed a third party

An Indiana Man Talks

W T Stillwell of Indiana president of the national assembly of the Farmers' Mutual Benefit association, referred to the depressed condition of the country said the Republicans claimed that there was overproduction in the United States and advocated a limit to production, while the Democrats advocated unlimited production Republicans did not however, suggest which of the industries should limit their production and Democrats did not provide any means to buy with after the markets were opened

In this country, said Mr Stillwell, 3,000,000 people went hungry the year round There was no overproduction, but there was underconsumption We needed more money Political partyism, he said, had been the curse of this country The independent voter however, is now exerting a powerful influence in this country Farmers were told where they went into an organization for independent action that one party or the other was using them and they should maintain their old affiliations, and in this way independent political movements were destroyed

Stelle and Mrs Gougar.

John P Stelle, secretary of the F M B A, followed Mr Stillwell in a brief address. The association, he said was non partisan Mrs Helen M Gougar made one of her characteristic prohibition woman suffrage speeches At night State Treasurer Wilson was the speaker, and he delivered an address on the evils of over legislation, out of which grew many of the troubles with which the country today was affected

Will Try to Boom the Third Party.

An attempt will be made to incubate the People's party in Illinois on Thursday Streeter, Taubeneck, Peffer and Willetts have taken advantage of excursion rates and the influx of farmers to the state encampment to boom their political protege. But those who say anything among the farmers are generally opposed to the movement They think the best plan is to work for the farmer with the old parties The leaders of the state Grange and other farmers' organizations, are of this opinion almost unanimously

CARLISLE TALKS POLITICS.

The Alliance of No Effect Except in Republican States.

NARRAGANSETT PIER R I, Aug 12—Senator Carlisle discussed the political situation at length Monday He said, among other things "The Alliance vote in Kentucky last week was less than 20,000 I can see no danger to Democratic prospects from the Alliance The only states it can by any probable chance carry are Kansas and perhaps Nebraska and Colorado The Democracy will lose nothing The movement in the south has substantially run its course already. There is a specter which confronts the white men in the southern states the shadow of negro supremacy Rather than have negro domination the whites will bury political differences and unite at the polls in order to prevent that which they regard as a greater evil

Republican Leaders in 1892.

"The Republicans will nominate President Harrison if Mr Blaine will not consent to stand The influence of the ladies of his family may deter Mr Blaine, but there is a tremendous pressure upon him from his old party friends to consent He would sweep the convention, I think. No Republican is as strong as Blaine I do not think that he will consent to run He has been very ill, and he is ill today Mr Blaine enjoys a very considerable popularity in the Democratic party, largely owing to the course of the Democratic press, which made him out an opponent of the force bill and an antagonist of the McKinley bill He is really as high a protectionist as the worst of them all.

The Democratic Candidate.

"As regards the Democratic candidates, Mr Cleveland, in my judgment, is still the strongest He may have offended the extreme pro silver men by his remarks against the free coinage bill, but he enjoys a wonderful reputation among the people The plain folks in the west and south swear by him. New York and Indiana remain pivotal states, and their wishes will be listened to very respectfully by the convention If the delegation of New York presents the name of Cleveland he will be nominated If New York and Indiana say they will elect the ticket even Hill and Gray might be the accepted candidates Hill is not the choice of the majority of the states and in the west he would be bitterly opposed

Democratic Clubmen in Council.

NEW YORK, Aug 12—There was a full attendance at the meeting of the executive committee of the National Association of Democratic clubs at the Hoffman house yesterday William S Wilson, of West Virginia, chairman of the executive committee presided at the meeting. The chief business of the committee consisted in listening to a report by Secretary Gardiner upon the condition of the clubs in all parts of the country Chairman Wilson gave an account of his tour to the far northwest The work accomplished by clubs in Utah led to the election of the Democratic ticket The most complete organization in any state was in the state of Washington

Tennessee Farmers in Session.

NASHVILLE, Aug 12—The third annual meeting of the Farmers and Laborers' union of the state was called to order in the hall of representatives at 10 o'clock yesterday morning by President J H McDowell with about 100 delegates in attendance During the meeting which will last about three days annual reports will be presented and officers elected for the ensuing year There seems to be no doubt that the sub treasury bill will be indorsed

Maryland Farmers Alliance.

BALTIMORE Aug 12—The Farmers' Alliance or People's party of Maryland, opened their third convention yesterday. The meeting is held with closed doors and what is done will only be given out by a committee on publication Friday was occupied in reading the annual reports of the president and secretary, which were both very encouraging

COMPARATIVE YIELDS OF WHEAT.

Interesting Experiments Made by the Missouri Officials.

ST LOUIS, Aug 12—A series of very interesting and important experiments in reference to the yield of the different varieties of wheat has just been completed at the agricultural experimental station of this state Sixty three different varieties were planted, and the yields when were carefully compounded, give the early Oakley first place with a yield of 42 5 bushels to the acre, while the German Emperor brought up the rear with twenty two bushels

Fults Pronounced the Best

The Oakley, however, has been found to yield well only under favorable conditions, suffering greatly in hard winters The Fultz variety, the wheat most in use in this state, was pronounced the best Its yield is not so great as some other varieties being thirty-two bushels, but it is remarkably hard and the straw is very stiff, but 5 per cent being down while with the Oakley 90 per cent was down

A DESPERADO AT LARGE.

He Seriously Wounds Three of a Posse Who Ran Him to Earth

MOUNT CARMEL, Pa, Aug 12—Fred Earnest beat his brothers so badly that they cannot recover and also knifed Bert Cleaver in a row at the grangers picnic at Johnston's grove He is still at large, notwithstanding that a desperate effort was made to capture him yesterday A number of citizens had been searching the surrounding hills for the assailant and not until yesterday morning did they get any trace of him While walking along the hillside several miles from this place they espied Earnest concealed behind a cluster of bushes and as soon as they set upon him he drew a revolver and fired into the crowd, seriously wounding three of their number During the excitement he beat a hasty retreat, since which time nothing can be learned as to his whereabouts.

Gave His Children Novel Names.

NEW LONDON Conn, Aug 12—The recent death of Lecompton Constitution Bill at a New York hospital, aged 31 years, disclosed the fact that his father James A Bill, of the country town of Lyme, a few miles west of this city, had a very queer way of naming his children He christened them with the name of the most important national event at the time of their birth Another son is named Missouri Compromise Bill, and equally odd names were applied to other children.

Ex-Congressman Scott's Illness.

PITTSBURG Aug 12—A special to The Times from Erie, Pa, says Ex Congressman Scott's condition has not improved since Monday His rapid loss of strength is viewed with alarm by his physicians, and unless he takes a turn for the better within a few days his recovery will be very uncertain. His stomach can retain but little nourishment, and the bowel trouble continues unabated

Corbett Wants to Fight Mitchell.

NEW YORK Aug 12—Jim Corbett, in an interview Monday, said that he was willing to meet Slavin or Mitchell for $1 000 a side He was particularly anxious, he said, to meet Mitchell and take some of the conceit out of him "I will meet him," he said, "at any place in America, and will offer him inducements which he cannot refuse I will fight him any way he wants from one round to a finish"

Will Discuss Labor in Factories.

CLEVELAND Aug 12—The fifth annual convention of the International Association of Factory Inspectors was begun here yesterday with a rather slim attendance. The convention is expected to last three or four days and will be devoted to the discussion of papers relative to the condition of labor in the factories throughout the country.

Bad Negro at Large.

TALLAHASSEE, Fla, Aug 12—The people about Archer are in a state of terror because of the depredations of Harmon Murray, the negro murderer and desperado who is now in that vicinity. He has already assaulted several colored women and has shot at six or eight people Parties are hunting the outlaw, but with small prospects of success

THURSDAY, AUGUST 13, 1891.

HERE IS A PICTURE.

There is a tariff picture on exhibition just now in California that we would like to see presented in The Rep or The New York Press. The trouble is in the canneries in Alameda county in that state. Nearly all the work in the canneries is done by women. It was formerly done by Chinese, but they have been replaced by cheaper labor.

It is worth while to note the wages paid these women. The San Francisco Weekly Report put a representative in the region of the canneries. He has made inquiries among the girls as to the wages they are getting. One girl reported that her average wages are $1.16 a week. The statements of all those at work in the canneries showed a weekly wage average of $1 90 The overseer of the institution gets $2 50 a week.

The situation has grown so desperate that the organized labor of California proposes to make a fight for the girls The labor men say that Chinese would not stand the treatment that has been given these women. The girls once got a dollar a day, this was cut to 80 cents. Then there was a change to piece work, and now the average is $1 90 a week

The employers say the women may strike if they want to, that there are many more who would like to have the places. The employers seem to be aware that there is free trade in labor. And yet those same men did not hesitate to go before McKinley's committee and ask for a protection of "85 per centum ad valorem" in order that they might pay their employes American wages. And McKinley allowed the protection asked for, and now the American workingwomen, whose interests were so hypocritically attended to, can take $1 90 a week or they can go on the streets. There are plenty of others to take the places as fast as they are vacated. And from this we are to learn that there are workingwomen in California who cannot now make $1.90 a week, who would jump at a chance as rawboned as that.

The owner of the cannery realizes that he will have to pay more for his cans, now that the duty on tin plate has been doubled and that F. G Niedringhaus' lone imported Welsh plate dipper has gone on a strike The owner does not propose to lose the difference. He will get as much as he can out of the consumer and then he will take the rest out of the working girls.

And all of it makes a pretty tariff picture. You can't find it in The Rep, but you can find it if you will go among the girls who work in the Alameda county canneries. It is free trade in labor, protection for the man who hires labor. It is an arrangement that furnishes fat for campaign frying purposes. It is working in elegant shape in California. There is not much wonder that that state has concluded to go republican.

NO TROUBLE THERE

We are told that the republicans will have no trouble in selecting their candidate for the presidency, that the issues on that side are all clearly marked, and that there is such unity in the party about the position to be taken that any leader will be acceptable all along the line.

The way things are now shaping themselves, it begins to look as if it were true that the republicans would have no trouble in selecting their candidate. The reason for this is that they will have nothing to say about the matter. The candidate is going to do his own selecting, and, if his health permits, he will choose himself. Nearly all the other republicans with whom we are acquainted, and of whom we have heard, will be permitted to sit around as ornaments on a log. The republican party belongs to one man; he will see that the voters are not put to any unnecessary trouble in the selection of a candidate.

The trouble that is waiting for the republicans relates to letting their little and imaginary candidates down easy. There will be a great heap of these to lower into the tureen. Some of them threaten to splurt about and sputter a great deal; they may throw a few dashes of soup into the whiskers and on the nice shirt fronts of the decorous mourners. Just imagine how Cullom, Alger, Gresham and Harrison will make the oleaginous spray play around the grief-stricken voter who may sit high on the beach.

There will be no trouble about finding a candidate, but there will be a world of worry about drowning the distinguished ducks who are to be thrown overboard.

And suppose they get Mr. Blaine to make the race. Will he be in accord with the party in all parts of the country? If such is the case why are all the country dailies making a fight on the Chicago Tribune? And why does the Tribune say that Blaine is the only man of the republican party who has sense enough to be president? It is the business of that paper to point out from day to day the matters in which Blaine differs from other would-be republican leaders, and in which he is immeasurably greater than they.

If Blaine is to be in line with the party there will have to be a big change between now and the time of the convention. His admirers say that the other men who are bidding for leadership are a set of chumps who are kept from going to utter ruin only by the saving genius of Mr. Blaine. There is a very distinct howl to the effect that Blaine does not take up with the policy of of the others.

Now, is there anything in this howl? A majority of the men in the republican party have taken it up. If it is all wind and no wisdom how are you going to find a candidate who will be in touch with those howlers? If they are that kind of people a leader, to be in accord with them, would have to come out of the madhouse. But if there is truth in what they say, how can Blaine be entirely acceptable to the men whose little policy he despises?

THEIR POSITION.

The discussion in the recent Grand Army encampment about the color line has led to an investigation of the position held by the black man in our military service. An exchange has the following on this question:

The rubbing out of the color line in the Grand Army has caused expressions of wonder in some quarters that any such line should ever exist. Yet in the volunteer service during the war colored soldiers were not enlisted in white companies, nor white soldiers in colored companies. Colored companies were formed into colored regiments, and these regiments, if there were enough of them, were put in the same brigade. So, too, in the regular army to this day colored soldiers are never enlisted for white regiments. There are two distinct regiments for colored men in the cavalry and two in the infantry, and they are found nowhere else. These colored regiments also have always had white officers almost exclusively. A few colored lads have been educated at West Point, and have been assigned as subalterns to the colored regiments, but this was a rare exception to the rule of white commissioned officers for the colored regiments, while in the appointments to second lieutenant from civil life there are no colored men. The Grand Army authorizes posts of colored soldiers as of white, but in Lousiana and Mississippi the policy was opposed by white veterans lest the colored men, being more numerous there, should get control of the departments. But the National Encampment held that they could not draw the race line unjustly against colored comrades who fought for the Union, and that separate departments could not be organized for them. It was enough that they should have separate posts of their own, just as they used to have distinct regiments.

Is there any republican in this part of the state who would like to make a race for a high office? If there is, he can get a job by going to New York. So far this year it has been impossible to find a republican in that state who is willing to make the race for governor. The offer of the nomination has driven several distinguished patriots beyond the state's borders. Some of them have gone to Europe, thus placing the Atlantic ocean between them and their misguided friends. Even Chauncey Depew would not take any chances with the buzz-saw. Miller, Bliss and Shroeder have broken all long distance records in their great act of getting out of the way of the cyclone that it is generally conceded the democrats have ready to turn loose.

Now, let some one of our men go forward and try for glory. The chances are thinner than a skeleton, but the reward of success is a mighty one The republican who can carry New York this fall may make himself a big enough man to contest the next nomination for the presidency with Mr. Blaine Of course the chances are 99 in 100 that the republican who should try to beat the New York democrats now would make good graveyard material out of himself. But that 100th chance ought to tempt a man who is out of a job. Can the H D spare its editor for a few months?

THERE is an enormous crop of wheat in this country this year. Those who pay special attention to matters of this kind say of the crop and the outlook for its sale

As the yield of winter wheat in the West is exceeding earlier expectations, most estimates of the total product in the United States have been revised and increased. The Cincinnati Price Current, an excellent authority, concludes that the crop will amount to 585,000,000 bushels, nearly 75,000,000 bushels larger than it has ever been before. It bases its opinion upon a great quantity and variety of data, and it is not likely that its calculations are far wrong. On this basis we will have, as the Price Current argues, at least 200,000,000 bushels for export, which should bring our gold back and cause a rapid and grateful circulation of money once more.

THE MARKETS.

CHICAGO, Ill, Aug. 12, 10 a m —The wheat market opened very nervous this morning in continuance of the the feeling displayed yesterday. The market opened higher this morning in continuance of the advance at the close yesterday, and because of strong cables and bad weather abroad After an advance heavy selling caused a break, standing at 95¼ at 10 30.

When steam was turned on again and amid a battle royal between the bulls and bears the price was put up to 96⅝c This bulge was partly due to a Paris cable which quoted wheat ½f higher and flour 1f up In the early trading the local crowd sold short in anticipation of a break in prices, but becoming scared by the strong foreign advances started in to cover their trades with the result given. At 11 o'clock the market was rather quiet again at 96⅛c Corn, while very nervous, was less excited than wheat. Sept. started at 59⅛c, an advance of ⅛c over night, but quickly sold off in sympathy with the early break in wheat and because of the fine growing rains in the corn belt, going to 58⅜c; then it rallied to 59⅜c with wheat and stood at that price at 11 o'clock. Provisions were dull and steady, with fluctuations confined to a very narrow range, the extreme figures for Sept pork up to 11 o'clock being $10 40 to $10.45.

1 p. m.—After 11 o'clock cables continued to come strong. Paris being quoted up to the equivalent of 3c per bu English houses were reported selling, but the continent was buying. When the reports of export clearances from the three Atlantic ports and New Orleans came in showing an aggregate of 1,200,000, Dec wheat again boomed upward, going this time to 9⅞c, but at 1 o'clock had sagged back to 95⅛c When wheat went to the top corn followed touching at 60⅛c. but at 1 o'clock was weak at 59⅜c Rye sold at 84c for Aug and 83⅛c for Sept.

THE FARMERS' ENCAMPMENT.

The F. M. B. A. Out of Politics—The Grange Meeting Yesterday.

The four days encampment of the farmers organizations of Illinois opened at the fair grounds at Springfield Tuesday. That was F. M. B. A. day. W. T. Stillwell, national president of the F. M. B. A., Cicero J. Lindley, state president, and John P. Stalle, national secretary, all discouraged separate political action in their speeches. The expression on the part of the leaders in the organization is accepted as direct evidence that the association has gone out of politics to stay, in Illinois. The attendance that afternoon was about one thousand. The exposition building at the fair grounds, where the meetings are held, is tastefully decorated with flowers, evergreens, fruits and the national colors.

Wednesday was set apart for the Patrons of Husbandry—the Grange. The attendance was about 1,000. Hon. B. F Workman, master of the Sangamon county Grange, made the address of welcome, and J. M. Thompson, state master, responded. Hon. Owen Scott, congressman from this district, made an address in the morning. He referred to the tariff incidentally, and spoke of the prosperity of Illinois. Hon. Mortimer Whitehead, of Washington, grand lecturer of the National Grange, made an address in the afternoon Ex Gov. Hubbard, of Texas, spoke last night

The Industrial Union and Alliance have Thursday, the third day. W. H. Bolles and Hon. Peffer are on the program.

Back From Detroit.

Editors Review—The G. A. R. encampment is over and we have returned home after one of the most pleasant sojourns of our lives. The citizens of Detroit fairly outdone themselves in extending every courtesy and kindness to their guests The parade was simply immense. We counted 92 bands, when becoming too enthusiastic, we desisted to enjoy the beautiful sight of the "boys in blue" keeping step to Glorious martial music as of old. Through the day the city was gorgeous in its decorations, but at night the illuminated electric lights forming mottoes and monograms made it beautiful beyond description. Through the courtesy of Gen. Alger the G. A. R and W. R C were taken by boat up the river near lovely Belle Isle to the very best point for sight seeing and there witnessed the most exquisite pyrotechnic display—it being near midnight before completed. After W. R C. convention closed Saturday, (and by the way, Illinois elected one of her fair daughters, Mrs Sue Sanders, of Delavan, to fill the national president's chair,) those delegates still remaining, the writer being among the number were given a rare treat Boarding the grand steamer, "Darius Cole," we were soon viewing the beautiful sights of Saint Clair or "The Flats" a city literally built in the waters and were there treated to a so called "fish supper," although this included every delicacy of the season. After returning to the boat delicious fruits were enjoyed by all G. A. R and W. R C people, the compliments of Gen Alger. We cannot desist speaking of the grand dinners served free to all delegates of W. R C. at the "Church of our Father" elegant souvenirs greeting us on each occasion, so that we have many reminders of the extraordinary entertainment and kindness received from the liberal hearts dwelling in the grand old city of the straits

Effie R Kennedy,
State Secretary Illinois W. R C

Taken Out in the Rain

During the excitement of the storm, at Niantic Tuesday, persons carried Dr. Clark out and over a block away to be sure that he would be far enough away. It was a bad move for him, as he has not been out of the house or out of bed for over a year, and a hard rain did not help him any. Mrs Clark has been sick for three months and they came back and carried her to a place of safety through the drenching rain. Men get very much excited in times of fire, and when all was over one man named W Corson fell from the excessive heat and Dr Colgrove was called to his side and he ran into his office for medicine and fell on his sofa and it took three doctors over an hour to revive him, but at this hour he seems to be resting easier.

King Corn

Secretary Garrard, of the state board of agriculture, has issued a circular of interest to all farmers who raise fine corn, setting forth the liberal premiums offered at the state fair for the special exhibit of corn. As arranged it will be possible for the exhibitor entering the best 12 ears of corn to capture premiums aggregating $115, with liberal sums in addition to those who do not take first place in all classes The purpose of the state board of agriculture in offering those special premiums is to encourage the raising of especially choice varieties of corn for exhibition at the world's fair As Macon county is one of the great corn counties of the state, and of the maize belt, there is no reason why she may not be able to capture these special premiums and also distance the world at the great exposition of 1893

Decatur at Milwaukee.

Bering Burrows has returned from Milwaukee, Wis., where a Decatur party is stopping at Lake View hotel. He says the weather has been the best, and that the camp is a beautiful place 16 miles from Waukesha, where Mr. and Mrs. C. A. Ewing, of this place are sojourning. There is splendid bathing and fishing is excellent Dr. W. A. Barnes and L. L. Burrows spend their time fishing, and the bass caught are unusually large and fine specimens of the finny tribe. Walter Strange joined the party early this week. As the weather is so pleasant and as they are enjoying their visit so well they are not thinking of returning soon.

SUICIDE BY AMMONIA.

The Terrible Agony Does not Prevent Its Use

No poison brings death with more maddening agony than ammonia, but that fact does not seem to discourage the suicide. The man Harrowitz, who deliberately swallowed a fatal dose of the drug in New York recently, is only one of the many who have gone the ammonia route to death in spite of the excruciating pain Dr. Blythe has recorded thirty cases of ammonia poisoning in the small London district of which he is health officer, Professor Mitchell mentions 22 cases, and four have occurred during the short time Dr Jenkins has been connected with the coroner's office in New York.

Cases of slow poisoning from ammonia are of constant occurence among men who work in its manufacture, or even in decomposing substances which give it off in considerable quantities Ammonia, slowly and from day to day taken into the system, causes the complexion so lose its freshness, and the skin of men who get heavily impregnated with it has a disagreeably blotched and discolored appearance.

Taken into the stomach from day to day in even the small quantities used to adulterate food such as baking powder. It not only injures the complexion but attacks the lining of the stomach, and is the source of much general ill health.

The recent rapid increase in the use of ammonia for various purposes, and the consequent increase in its manufacture, have made it one of the most easily obtained poisons and, although everybody is familiar with it in some form, there is a surprising amount of ignorance of its dangerous qualities. Its use as an adulterant in any food preparation is simply a crime, and as a crime should be punished

Hard Driving

Phil Blenz bought eight steers from William Voorhies and started early Monday morning to drive them from Bement to Decatur. He had one of the most exciting times he ever had, and traveled about as far as from here to Chicago. As soon as the steers got out in the road, they went wild, scattered and showed Mr. Blenz and his two assistants their heels to the best of their ability. From Monday morning till yesterday noon the men were on the road. The steers covered all the country in the neighborhood. Finally the men got them all chained together, and then they got them into town.

A New Character.

The immigrant Swede is a character entirely new to the stage, and for that matter comparatively unfamiliar to that insignificant portion of the United States not embraced in the great Northwest. Gus Heege, the originator of "Yon Yonson," which will be seen here tomorrow night, has given theatrical history a character so quaint, so original, so clearly limned that the impersonation cannot fail to stand boldly out among the most celebrated portrayals of the American drama

AN ELEPHANT ON OUR HANDS . . . . . .

Let us make no bones of telling the truth. The big stock of shoes for summer and fall wear which we have is an ELEPHANT ON OUR HANDS. We must get rid of it, because our Mr. L. L. Ferriss has bought the biggest stock for the retail house of Ferriss & Lapham which was ever bought for a Central Illinois city, and we must have room for these goods. They will begin to arrive soon and we must close out the summer and early fall goods. We have had tremendous sales and we want to continue selling just as fast. Plenty of those fine sample shoes left and they are going at half price. We sell pou men's patent leather shoes at $3 75 and the former price was $5.00. We sell men's fine Kangaroo Oxfords at $3 50, and $4.50 was a very close price for them. We have Ladies' Oxfords at

Dont Sell to Peddlers.

G. W. Ehrhart & Co., wish it stated that they are not selling fruits to peddlers, to the injury of the trade of their customers. Ehrhart & Co. do not get overstocked. They handle more fruit than other dealers, but they handle it legitimately, and dont have to work it off through peddlers. The only place to get Port Limon bananas is from G. W. Ehrhart & Co., and peddlers dont have that fine fruit.

Aug. 12.

MADE A LIP.

A Decatur Doctor Furnishes an Unfortunate With a New Mouth.

There appears to be no part of the human body that Decatur doctors cannot make. Another remarkable surgical operation was performed yesterday. This time Dr. R. L. Walston was the operator. He made a new lip, and in fact, a new mouth for a man who had to lose the one furnished by nature.

Henry Sicafoose, a farmer living near Athens, in Menard county, came to Decatur to have Dr. Walston treat him for a cancer. He had suffered with it two years just under his lower lip. It had eaten most of the flesh away under the lip. Dr. Walston concluded there was nothing to do but cut the lip away, and that he did, removing the skin and flesh down to the dimple half way between the mouth and point of the chin. Two straight cuts were made downward from the ends of the mouth Then the flesh was cut loose over the chin and down on the neck, and drawn up, so as to form a new lip Virtually the lower half of the mouth was replaced by flesh drawn up from the chin It was bound to the teeth by silver wire, which was passed through the new lip and between the teeth For the present the man will live on gruel, oatmeal and soup

The new lip will grow in place soon, however, and will look quite natural. Dr Walston thinks the only signs of the operation will be two small wrinkles or puckers at the corners of the mouth. Mr Sicafoose will not be a bad looking man.

This is the second operation of the kind Dr Walston has performed. The other one was entirely successful, and therefore it is thought this one will be. It is a very rare operation, and is not described in the books devoted to surgery. That it has not been successfully tried by anyone else seems likely.

Mr Sicafoose is an old man, almost 67. He is quite poor, and will be unable to pay Dr. Walston for this operation. That did not deter the physician when he concluded that the operation was necessary to save the man's life.

The Clinton Fair.

There was a big attendance yesterday at the DeWitt county fair at Clinton. About 5,000 were on the grounds. The receipts were $1,200 The track was in excellent condition Indications are now that the fair will be a great success, with a good attendance the rest of the week. There were three races.

The first race was a half mile dash, in which six were entered and five started The purse was $100 First money was won by Passion, a Terre Haute horse Cyclone, owned in Clinton, was second. The time was 51.

The second race was a two year old trot for a purse of $300 It was won by Major, owned by Charles Wilson of Pleasant Plains, Ill There were four starters and Major distanced them all. Time, 2 28

The 2 35 trot was for a $300 purse. It was won by a horse owned by N T. Kirby, of Jerseyville.

Elias Brock is starter for the races Messrs Hugh Magill and A. D. Merwin, both of Clinton, are timers

Considerable amusement was occasioned on the grounds yesterday by a drove of Shetland ponies A reward was offered any one who could ride one Several young men undertook the job, but gave it up after the first throw, which came in short order. George Samuels, of Wapella, took everything with his magnificent herd of Polled Angus

Got Three Days Board

A stranger whose name is thought to be Snyder, got three days board at the Thomas house on Water street, and then left without paying his bill. Various articles were missed about the same time so it is thought they left with him. He loomed up on the scene Saturday, when he engaged board and lodging He was given a room in which were two beds One was occupied by Mr. Clark, an employed of the Young Bros & Maris Co.

Snyder or whatever his name was, sat around the house the rest of the day and talked to any one who would listen. He said he had rented the storeroom vacated by Ehrhart & Co, and that carpenters would begin Monday morning fixing it up for the first class shoe store he would open there He was only going to employ young lady clerks and thought that would make the place draw well Sunday he had quite a religious discussion at the house and wound up by going to class meeting with Mr. Thomas He was given an opportunity to take part, but declined

Sunday afternoon he spent in Central park. Monday he did not come to dinner and has not been seen at the house since. Neither have a $12 pair of pants, two shirts and a pair of cuffs, and some collars that Mr Clark had in his room. The police were informed of the matter Tuesday night and did what looking they could yesterday. The fellow was rather well dressed and did not appear to be a dead beat.

Got Dizzy

An unknown man climbed the electric light tower on North Clinton street early yesterday afternoon. He got up in the top, then got dizzy and was afraid to come down. He called to some women and asked if they could help him They could not and let him stay in the tower all afternoon. Along towards night they tried to aid him to the extent of going down to the Short street station and telling the police. Officer Kirkbride went out to the place, but found that the fellow had got down by himself just after dark. He got away without giving his name. It was perhaps a matter for regret that he got away so soon. Climbing the towers is a violation of the ordinance. A night spent in the station horse after the day in the tower would certainly have stopped the practice so far as that man was concerned

Mechanicsburg Campmeeting

A Methodist campmeeting is held every year at Mechanicsburg. The one this year is said to be more interesting than any that have preceded it. Thirty ministers will preach during the 10 days. That will be three different ones each day, and no one will preach twice. Tuesday Revs Wood, Stoover and Crane were the preachers. Yesterday two of the sermons were delivered by Revs. Caldwell and Dana. Friday Revs. Reed, Hawes and Miller will be the speakers. A great many people are on the grounds in tents.

Hand Caught.

William Cres, a switchman in the T. H. & P. yards, had his right hand caught last night while coupling cars near the Eldorado street crossing. His hand was badly crushed and looked as if it would have to come off. Dr. Catto and Jones found it would be necessary, however, only to take off the ends of the first and second fingers. The rest of the hand is injured but can be saved.

Elmer Reveale, 14 years old, was fishing at the river yesterday He threw a line, caught the hook in one finger, and had to have Dr. McLean cut it out.

Deqot Strader gave a picnic to his friends at Riverside park yesterday. About 12 were present to enjoy the evening and the picnic dinner that was spread.

Attorney A. G. Webber was making an argument nearly all day yesterday before Judge Nelson in the county court to have the estate of Mabala T. McVey reopened. It was closed and the administrator, William McVey, discharged The administrator had a claim from Drs Tobey and Harvey for medical attention against the estate, but did not present it for adjudication. The judge has not yet given his decision

The engine which was used for hoisting the elevator in the new Presbyterian church tower, has been moved to the new St Nicholas building and will be put to similar use. All the stone work has now been completed on the tower and the frame work on top is almost ready for the slate roof. The stone masons will soon set the steps and walk for the front entrance, which will be the last stone work on the church.

The cylindrical glass which encloses Abram's show case at the foot of his stairs on North Water street was prostrated by the heat yesterday afternoon. It is almost air tight and on account of the expansion of the air in the interior, it exploded and broke into a hundred pieces. The loss is $31. Mr. Abram has had two of these glass cases broken before and has now decided that it is an expensive advertisement, and will not purchase another.

Thought It Was Sunstroke.

Emanuel Rhodes was thought to be dying all day yesterday at the Citizens line car house. He was found in the morning lying in the sun in the vard between the car house and St. Patrick's church. Men at the car house remembered then that he had been seen to fall on the walk a short time before. He did not attempt to deny that he had been drinking. The street car men thought when they found him that he was overcome by the heat and began to think that he was dying. They called Dr. M H. Farmer. He found Rhodes with a bad lump over one eye. The old man lay there until along in the afternoon. He appeared to be in great suffering and was unconscious. Dr. Farmer gave him some treatment and the men about the house did what the could for him Word was sent to his friends in Piatt county yesterday morning.

In the afternoon Henry Rhodes, a nephew, arrived from Monticello, and had the old man removed to St Mary's hospital. He was resting easitly last night and appeared to be in a fair way to recover.

Rhodes now lives in Piatt county south of Monticello. He formerly lived in Decatur and was once an officer in Oakley township.

He was taken to the company's hospital and was treated until the bones had united, when he received his discharge from the hospital. Jesberg claims the injury was due to negligence of the railroad company.
